

Time-Limited Offer, act by January 31st, 2025:

Threat Hunting Fast Start for MSSP & MDR

A quick boost on Threat Hunting efforts, with no operational delays to start delivering on the joint mission.

This is a very special, time-limited offering that delivers multi-tenant threat hunting using data-driven approach and advanced MITRE ATT&CK® mapping, all within a Zero Trust framework. Designed for rapid implementation and client success.

Time and Materials

- **3-month** one-time access to Attack Detective
- **6** data audits per client, for **3** clients (**18** audits total)
- **6** automated Threat Hunting scans based on customizable scenarios, usable for **3** customers (**18** scans total)

Supported SIEM & EDR

- Microsoft Sentinel, Elasticsearch and Splunk, Microsoft Defender Enterprise

Zero Trust Architecture

- Find and address detection stack gaps without giving away your customers' data
- Create an anonymized config of your clients' SIEM and cross-reference it against the largest collection of threat detection algorithms
- See exact ATT&CK® mappings and focus on your own scope

Services and Commercial Benefits

- **1-hour** tech & SIEM expert onboarding session, documentation, and Discord community
- **50%** credit of paid price towards optional MDR Partner Upgrades

PRICE: \$14,500.00 (USD)
